Guidelines

In accordance with the Customer Service Standards, this policy addresses the following:

- A. The Provision of Goods and Services to Persons with Disabilities;
- B. The Use of Assistive Devices
- C. The Use of Guide Dogs, Service Animals and Service Dogs
- D. The Use of Support Persons
- E. Notice of Service Disruptions
- F. Client Feedback
- G. Notice of Availability and Format of Required Documents

A. The Provision of Goods and Services to Persons with Disabilities

Polar will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- Ensuring that all clients receive the same value and quality;
- Allowing clients with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- Using alternative methods when possible to ensure that clients with disabilities have access to the same services, in the same place and in a similar manner;
- Taking into account individual needs when providing goods and services; and
- Communicating in a manner that takes into account the client's disability.

B. The Use of Assistive Devices

Client's Own Assistive Device(s)

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Polar.

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a client with an oxygen tank may involve ensuring the client is in a location that would be considered safe for both the client and business. Or, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the client.

C. Guide Dogs, Service Animals and Service Dogs

A client with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law.

Exclusion Guidelines

If a guide dog, service animal or service dog is excluded from accessing the premise by law, Polar will offer alternative methods to enable the person with a disability to access goods and services, when possible (for example, securing the animal in a safe location and offering the guidance of an employee).

Recognizing a Guide Dog, Service Dog and/or Service Animal

If it is not readily apparent that the animal is being used by the client for reasons relating to his or her disability, Polar may request verification from the client.

Care and Control of the Animal

The client who is accompanied by a guide dog, service dog and/or service animal is responsible for maintaining care and control of the animal at all time.

Allergies

If a health and safety concern presents itself for example in the form of a severe allergy to the animal, Polar will make all reasonable efforts to meet the needs of all individuals.

D. The Use of Support Persons

If a client with a disability is accompanied by a support person, Polar will ensure that both persons are allowed to enter the premises together and that the client is not prevented from having access to the support person. In situations where confidential information might be discussed, consent will be obtained from the client, prior to any conversation where confidential information might be discussed.

E. Notice of Disruptions in Service

Service disruptions may occur due to reasons that may or may not be within the control or knowledge of Polar. In the event of any temporary disruptions to facilities or services that clients with disabilities rely on to access or use Polar's goods or services, reasonable efforts will be made to provide advance notice. In some circumstances such as in the situation of unplanned temporary disruptions, advance notice may not be possible.

In the event that a notification needs to be posted the following information will be included unless it is not readily available or known:

- Goods or services that are disrupted or unavailable;
- Reason for the disruption;
- Anticipated duration; and
- A description of alternative services or options.

When disruptions occur Polar will provide notice by:

- posting notices in conspicuous places including at the point of disruption, at the main entrance and the nearest accessible entrance to the service disruption and/or on the Polar website;

- contacting clients with appointments;
- verbally notifying clients when they are making a reservation or appointment; or
- by any other method that may be reasonable under the circumstances.

F. Client Feedback

Polar provides clients with the opportunity to provide feedback on the services provided to clients with disabilities. Information about the feedback process will be readily available to all clients and notice of the process will be made available by posting it on Polar's website. Feedback forms along with alternate methods of providing feedback such as verbally (in person or by telephone) or written (hand written, delivered, website or email), will be available upon request.
